Why Join This Program?

Support from an Experienced Team

The Gap Indonesia team is also the team behind International Internships and has ten years experience hosting a variety of programs for Australian universities. We all have teaching experience at Australian schools and universities and Jack and Frida, our Indonesian based team members, are fluent Indonesian speakers.

We will provide lots of support before, during and after the program. We will give you a ton of information and be there to answer any questions that arise prior to your departure from Australia and during the program. We are there to guide you, but also to challenge you and ensure that you get the most out of the program.

Real, In-Depth Introduction to Indonesia through Bali

Bali is an island rich in history and culture and the itinerary for the Gap Bali Program has been structured to help you see and understand as much as possible about it: You will learn Indonesian, spend time in the different regions of Bali and also experience the different ways of life of Bali's people, from the busy tourist areas to the quiet villages. This is not a regular experience of Bali and will equip you for a future throughout Indonesia and the rest of Asia.

Buddies, Buddies, Buddies!

What better way to learn about Indonesia than to be surrounded by local students? Indonesian students from our partner university are a key part of this program and participants will return to Australia with a new group of life-long friends.

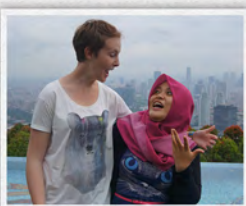

Get the Basics in Indonesian or Expand Existing Skills

Regardless of whether you are a complete beginner or whether you have been studying for years, this is a chance to really strengthen your Indonesian language skills. The language classes are placed at the start of the program so that you then have the following three months of immersion to practice and build upon what you learn. Indonesian will be a valuable language for the future and with this program you really will be able to obtain a solid grounding.

Real Experiences for Your Future

The Gap Bali program includes a month-long volunteering placement and a month-long internship, so you can get real experience working in a variety of fields before you even start university. This is an invaluable opportunity to make some great contacts, get a head start in your career and gain some incredible life experiences.

"I just wanted to say thank you for the fantastic trip! I enjoyed every aspect of this trip despite getting sick in patches along the way, especially being exposed to the business aspect. I feel that this trip has allowed me to blossom in using my language skills and meeting new people..... It has given us great insights to the world outside of high-school, and I'm soooooo excited for what I may do after yr 12"

Mirren Strahan, Indonesia Uncovered 2014
